RE: Staff's Second Set of Data Requests to MWC, Inc. ("MWC"), Docket No. W-02658A-08-0479
W-20636A-08-0479

Dear M. Petersen and Mr. Walser:

As you are aware, MWC received an Insufficiency Letter dated October 9, 2008, requesting certain information to meet sufficiency requirements. In addition to information requested in the above-referenced Insufficiency Letter and Staff's First Set of Data Requests to MWC dated October 20, 2008, Staff is requesting that MWC provide the following:

1. Please identify what corporate entity will be assuming control of MWC with the proposed sale and transfer and that entity's status with the Corporations Division of the Arizona Corporation Commission ("ACC").
2. Will all MWC's liabilities, including but not limited to, refund obligations associated with main extension agreements and deposits be assumed by the acquiring entity?
3. Describe the financial condition of the acquiring entity and why the ACC should make a finding that the acquiring entity and its owners/operators are financially, technically, and managerial fit to operate a utility company.
4. What rates is the acquiring entity planning to charge.
5. Please describe the organization structure of the acquiring entity.
